

# Estate/Legacy Planning Program

...during and after COVID

## Webinars 2020 - 2022

## Participant Comments

*"I am so happy I registered for the webinar series; it's been wonderful and very timely as I just helped my 90-year-old father re-do all his estate planning in Montana (which had last been done in Michigan quite a number of years ago) and my husband and I are in process of updating our own estate planning."*

*"I had questions about going through probate for my parents estate. Although I was living in Las Vegas at the time, I could not have been more impressed with the help I received."*

*"Thank you for giving us all the information. It was so helpful. It was good to learn all Montana's requirements and laws."*

*"This was very informative. You presented a boring topic in a fun way. Lots of good examples."*
